About ZeaChem:

ZeaChem Inc. has developed a cellulose-based bio-refinery platform capable of producing advanced ethanol, fuels and chemicals. Our indirect approach leapfrogs the yield and carbon dioxide (CO₂) problems associated with traditional and cellulosic based processes.

Incorporated in 2002, ZeaChem is headquartered in Lakewood, Colorado and operates a research and development laboratory facility in Menlo Park, California. ZeaChem has completed construction of the core facility for its new 250,000 gallon per year integrated demonstration biorefinery.

ZeaChem is an Equal Employment Opportunity employer and does not discriminate on the basis of race, color, religion, sex (including pregnancy), national origin, age (40 or older), disability or genetic information.
